Project Architect

Studio 3 Design is looking for a dynamic professional to join our growing company in a Project Architect role.

The Project Architect is responsible to provide design execution and technical leadership to the Project Team for all phases of a project's development. The successful candidate must have the ability to plan and meet project deadlines, the ability to lead a project team, and a holistic understanding of design and construction processes.

Responsibilities:
- Experience and proficiency with Revit and AutoCAD in the production of Design and Construction Documents.
- Experience with other 3D modeling and rendering software.
- Effective communication skills and ability to work both independently and as a part of a project team.
- Attention to detail and the ability to manage multiple tasks simultaneously.
- Familiarity will all local, state and national building codes, including ADA, FGI and Fair Housing.
- Strong organizational and time management skills.
- Ability to plan, organize, and manage architectural design and documentation for all phases of a project.
- Ability to coordinate all aspects of the design with the Project Team.
- Attend client meetings and ability to help facilitate long term client relationships.
- Ensure that Owner criteria are being met by all disciplines.
- Ensure that project deliverables, documents and schedules, are being met by the Project Team.
- Construction administration and site observations to assess the quality of the work.

Experience/Education:
- A Bachelor's or Master's Degree in Architecture from an accredited university.
- 5-10 years of experience in an Architecture firm *(Healthcare experience is a plus)*
- Licensure preferred
